

ERIC DIMECH

FULL STACK WEB DEVELOPER

PERSONAL PROFILE

Full-stack web developer with experience in designing and developing complex user interfaces, testing, debugging, and mentoring junior developers.

WORK EXPERIENCE

Web Development Teaching Assistant

BrainStation | Toronto, ON | Nov 2020 - Feb 2021

- Oversaw daily stand-ups and open-studio sessions to mentor students, assist with troubleshooting code, and providing industry insight into debugging solutions.
- Assembled live coding demonstrations to deepen student understanding and strengthen core concept knowledge.
- Streamlined code reviews when providing meaningful feedback to students during weekly Sprint submissions with a focus on code quality, visual design, and comprehension.

Security & Systems Analyst

DFAT | Dili, East-Timor | Sept 2017 - Feb 2019

- Refocused the Australian Embassy East-Timor risk management portfolio and emergency response protocols using an electronic database management system.
- Orchestrated tabletop emergency response exercises with the Australian Defence Force and Australian Federal Police.
- Collaborated with United Nations security stakeholders regarding regional and national security concerns.

EDUCATIONAL HISTORY

BrainStation

Web Development Diploma | Aug 2020 - Oct 2020

- Studied full-stack web development with a focus on UI, responsive design, and server-side technologies.
- Participated in a 4D hackathon with Adidas Canada
- Coordinated a team of students from web development, UX/UI, data science, and digital marketing during a 24-hour hackathon with Shutterstock.

Royal Roads University

BSc Environmental Science | Sept 2010 - Sept 2011

- The thesis involved studying invasive plant species in southern Vancouver island harnessing a large database to optimize future research practices.
